Corporate History

For over 100 years, General Engineering Company has provided multidisciplinary consulting engineering, inspection and professional services throughout Wisconsin and the surrounding Midwest region. Headquartered in Portage, WI, with offices in La Crosse and Black River Falls, General Engineering Company approaches every project with a client focus. While every project situation is unique, GEC uses our extensive project experience, creativity and a staff of diverse professionals to provide a comprehensive, client-based solution.

Since the founding of General Engineering Company in 1912, we continue to be dedicated to our clients best interests and needs. Focusing on our clients vision of the project, delivering reliability and integrity at all times and offering a variety of economically feasible options are the principals and values that GEC was built upon and maintains today.

Over the years, there have been many changes in the services our clients have requested from us. However, the core principals and values that we have and continue to operate by, help us achieve excellence in our professional endeavors and provide an elevated quality outcome for our clients. We have maintained this as a strong corporate philosophy that distinctly defines who we are, what we do and how we do it.

GEC's core philosophy is to ensure that best practices in planning and engineering are built into every project we undertake. Our professional team will streamline efficiency, reduce waste, utilize sustainable resources, and work to achieve a superior standard of excellence.
